National Board of Trade. CINCINNATI, Dec. 3. The National Board of Trade was called to order at 9 o'clock this morning. The committee reported concerning the O'Harra & Co., are the Agents for the New England Mutual Life Insurance Co., Columbus, Ohio.

The committee reported concerning the Civil Service Bill, and Mr. Metheril, of Philadelphia, moved the board favor the passage of the bill introduced by the Hon. Mr. Jenekes, of Rhode Island, at the last session of Congress. The whole subject

was laid on the table.

The next section of the report was that the executive council renew the application to Congress for a charter. Adopted. The report in regard to the cental sys-

tem was referred back. A communication from the Detroit Board of Trade concerning the copper interests of the country was referred to the execu-tive council. Another from the Louisville Board of Trade concerning the channels of the Ohio and Mississippi rivers was referred to the executive council. A com-munication from the United States Mail Line Company, tendering the steamer America, for the purpose of an excursion, was read and the invitation declined.

The following resolutions, offered by the Chicago Board of Trade, were the cause of great deal of discussion; the delegates from the East generally opposing their passage, while the Western Representatives as strongly advocated the passage of the same. They were finally adopted by a vote of forty-nine for and twenty-six against:

WHEREAS, The custom prevails in most cities at the seaboard of selling produce provisions and other property nominally for cash, but in reality upon a credit to th purchaser of from five to fifteen days; and WHEREAS, The Western or interior consigners of such property have been, in many cases, obliged to suffer loss by cred-its so given by consignees to irresponsi-ble parties, and at other times have been obliged to pay largely for guarantees and consignees of such sales on credit;

therefore,

Resolved. That it is the opinion of the National Board of Trade that all sales of grain, flour, provisions and other similar property consigned for sale on the owner's account, to commission merchants, should be sold for cash on delivery.

Resolved, That this be duly recommended

to local organizations associated with us. Mr Raper, of Boston, read a series of resolutions adopted by the Board of Trade of that city which the delegates from Baltimore accepted, with a slight amendment as expressive of the sentiments they desired adopting, viz: Whereas. Turkey. A Constantinople letter to the Herald gives an account of the sentiments enter-tained by the Turkish Government and people for the United States, and their anxiety about the policy this country may oursne toward the Ottoman empire. Turkish Government appreciates the greatness and power of the American republic, and seeing no favorable cause for any serious difficulty between the two countries, is desirous of maintaining the most friendly relations, and of disabusing the public mind here of any erroneous

mpressions with regard to Turkey. The British Ministry.

The Herald says of the resignation of the British Ministry that this prompt respons to the will of the British people, as popuarly expressed, will be regarded wit istaction by both triends and foes of the late premier. There was, in fact, no other al-ternative, and it would be a happy thing for our own if every Cabinet minister should feel obliged to tender his resignation to the President whenever the popular will has been expressed in opposition to the measures of an existing administration. The polloy of the new British ministry will no doubt soon be dev-loped. In the mean-time we await the course of events in Great Britain with profound interest. They may be pregnant with significant consequences. not only to the future of the whole British empire, but the progress of liberalism among nations generally.

Sheridan's Indian Policy. The Herald also commends Sheridan's novements against the Indians as the only true plan of dealing with them. Seward.

It is stated that Mr. Seward and several of his friends are making preparations to visit Europe immediately after Grant takes the Presidential chair. Fort Lafayette.

Nothing remains now of Fort Lafayette but a rained mass of brick and mortar. There is no fire on the premises. Soldiers re still on guard. Several unexploded shells remain among the ruins and may go off at any moment. The loss to the Gov ernment will be about \$250,000. Fire Marshal Keady took evidence yesterday as to the origin of the fire.

The New Revenue Regulations Certain New York merchants are trying their best to have Secretary McCulloch nullify the new revenue regulations relative to the execution of bonds to save the payment of duties. One of the merchants of this city threatens to be one of one hundred to use influence and money to, secure McCulloch's removal unless the regulations are reported within ten days. Erie.

The Erie matter came up again to-day before Judge Sutherland, on the motion made yesterday to have Judge Cardoza's order vacated. Judge Sutherland took occasion to state that he thought the counsel for the plaintiff. in going before Judge Cardoza and arguing the motion, had virtually admitted his (Car-doza's) jurisdiction, and compromised doza's) any right they might have had before him Sutherland) to vacate the order of Cordozo. Having thus compromised them-selves he would not further allow them to compromise his rights in the matter, and therefore he should allow the case to remain on the calendar without making any order. He also defended his previous action as being the result of conscientious and careful study of the papers before him, and then the case, by consent, went over till to-morrow.

Latter from General Howard.

A letter published from Gen. O. O. Howard to Gen. Brown. As Istant Commissioner of Freedmen, A., for Virginia, giving reasons for closing up all but the chaim division and educational work, says. "I have no doubt that a continuance of fife bureau in those States not yet reconstructed would in many respects be beneficial to the freedmen, but I do not think its continuance absolutely necessary or adequate. Without aid to protect their lives, or to secure to them their political rights, it is very true that in many parts of the late Slave States it is difficult for a colored man to get justice in the interior Courts. In many counties of all those States his rights are counties or all those States his rights are neglected or positively disorganized.— Among certain classes a prejudice often amounting to hatred exists, which only amounting to hatred exists, which only time can era licate. The conduct of this diass may be restrained by the wholesome enforcement of the laws but cannot be rectified by the officers of this Bureau. This has been clearly demonstrated in the States which have been reconstructed. In unreconstructed States the protection can still be extended in a more summary way, by the military commander, through his officers, under the authority of the reconstructers. officers, under the authority of the recon-

officers, under the authority of the reconstruction acts."

General Howard adds that the civil authorities should supply the poor with tood, but if it is necessary to prevent suffering the Government can continue a limited issue of supplies through its military officers. He will continue the school work in Virginia with all the means at his command, a portion of the appropriation therefor re-maining unexpended.
